Serpentine Belt Tool Kit BMW Mini

Instructions

Our products are designed to be used correctly and with care for the purpose for which they are intended. No liability is accepted by the Tool Connection for incorrect use of any of our products, and the Tool Connection cannot be held responsible for any damage to personnel, property or equipment when using the tools. Incorrect use will also invalidate the warranty.

If applicable, the applications database and any instructional information provided has been designed to offer general guidance for a particular tool's use and while all attention is given to the accuracy of the data no project should be attempted without referring first to the manufacturer's technical documentation (workshop or instruction manual) or the use of a recognised authority such as Autodata.

It is our policy to continually improve our products and thus we reserve the right to alter specifications and components without prior notice. It is the responsibility of the user to ensure the suitability of the tools and information prior to their use.

Safety First. Be Protected.

Guarantee

If this product fails through faulty materials or workmanship, contact our service department direct on: **+44 (0) 1926 818186**. Normal wear and tear are excluded as are consumable items and abuse.

Description

BMW Mini 2007 onwards

Applications include: N12, N14, N16 and N18 petrol engines.

- Two sizes to fit all engines: 30mm x 12pt and 21mm x 12pt
- 568mm long with soft grip handle

Designed to remove the sprung loaded serpentine belt adjuster to allow removal and fitting of the Serpentine belts.

NOTE: The term serpentine belt is used to describe an auxiliary drive belt (alternator/AC/water pump drive belt) that winds its way around the various pulleys in a snake like fashion.

Kit includes:

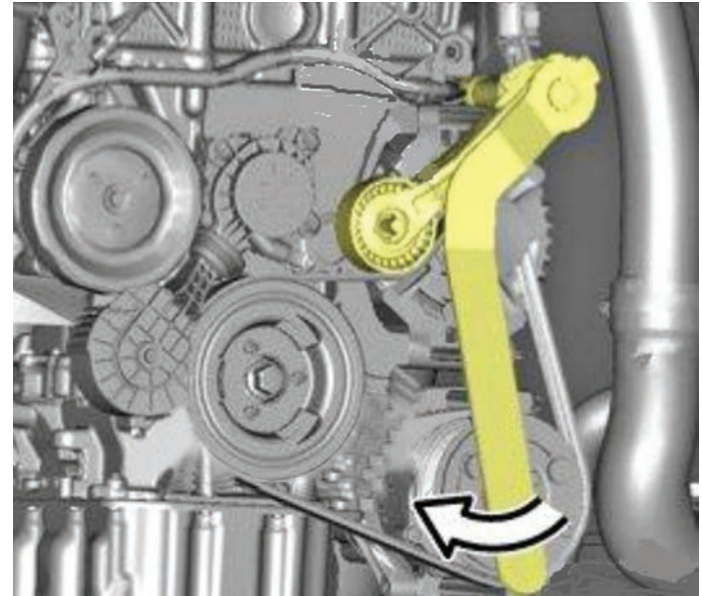

- 2 specially shaped 12 point wrenches equipped with 1/2"D access for Torque wrench or ratchet.
- Equivalent to BMW OEM number 11 6 210.

Applications

BMW Mini

Mini R56, R57, Coupe R58, Roadster R59, Clubman R55, Countryman R60, Paceman R61, Clubvan R55.

N12, N14, N16 & N18 Petrol Engines.

Access is gained by removal of the right hand front wheel and inner wheel arch.

Note: Tool shown in use on N12 engine.
